# door selector

For simplicity, we've categorised kitchens into 3 main design types, Choose from **Contemporary**, **Traditional** or **Shaker**

For a unique and distinctive kitchen, why not combine different door colours for a striking style statement as shown on pages 22-23.

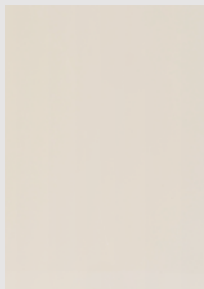

Handles can make all the difference to the character of your doors so a number of different options are available to choose from, see pages 78-81 for details.

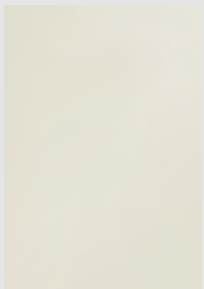

euro white gloss  
crisp white finish and easy to clean

sculptured white gloss  
handle-less design in a gloss white finish for a minimalist look

euro sand gloss  
subtle palette variation from white and cream and easy to clean

euro cream gloss  
cool cream palette and easy to clean

sculptured cream gloss  
handle-less design in a cream gloss finish for a minimalist look

euro grey gloss  
a darker grey gloss tone and easy to clean

sculptured grey gloss  
handle-less design in a grey gloss finish for a minimalist look

stone grey  
matt grey smooth finish and easy clean

warm timber door with a defining shaker detail

rustic oak shaker  
solid timber door with genuine knots and defining shaker detail

pale oak shaker  
a lighter colour choice than natural oak with vertical grain effect

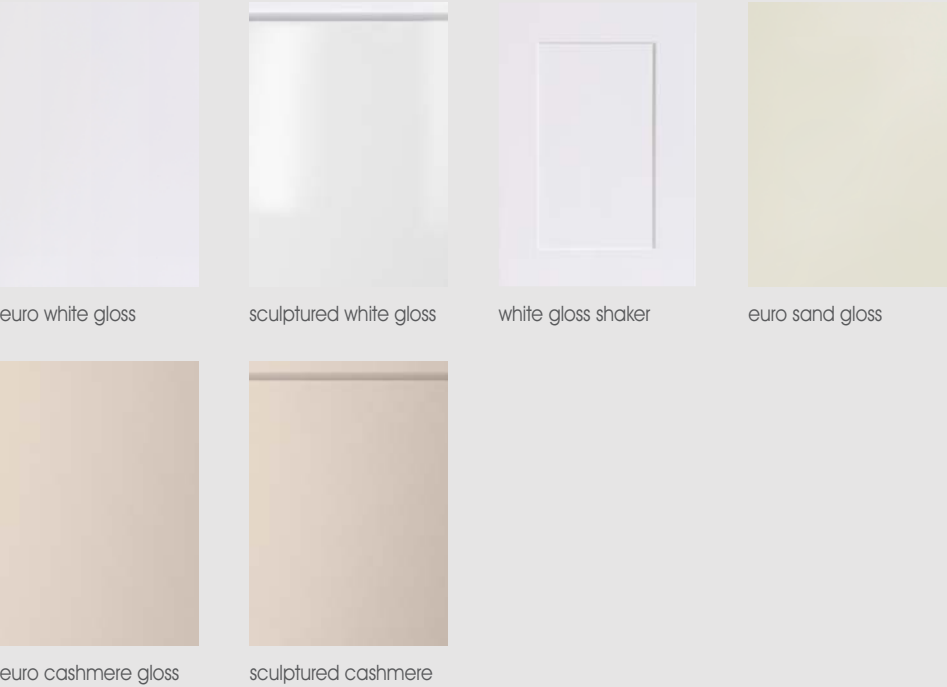

dakar shaker  
matt dakar finish creating the look of grain painted wood

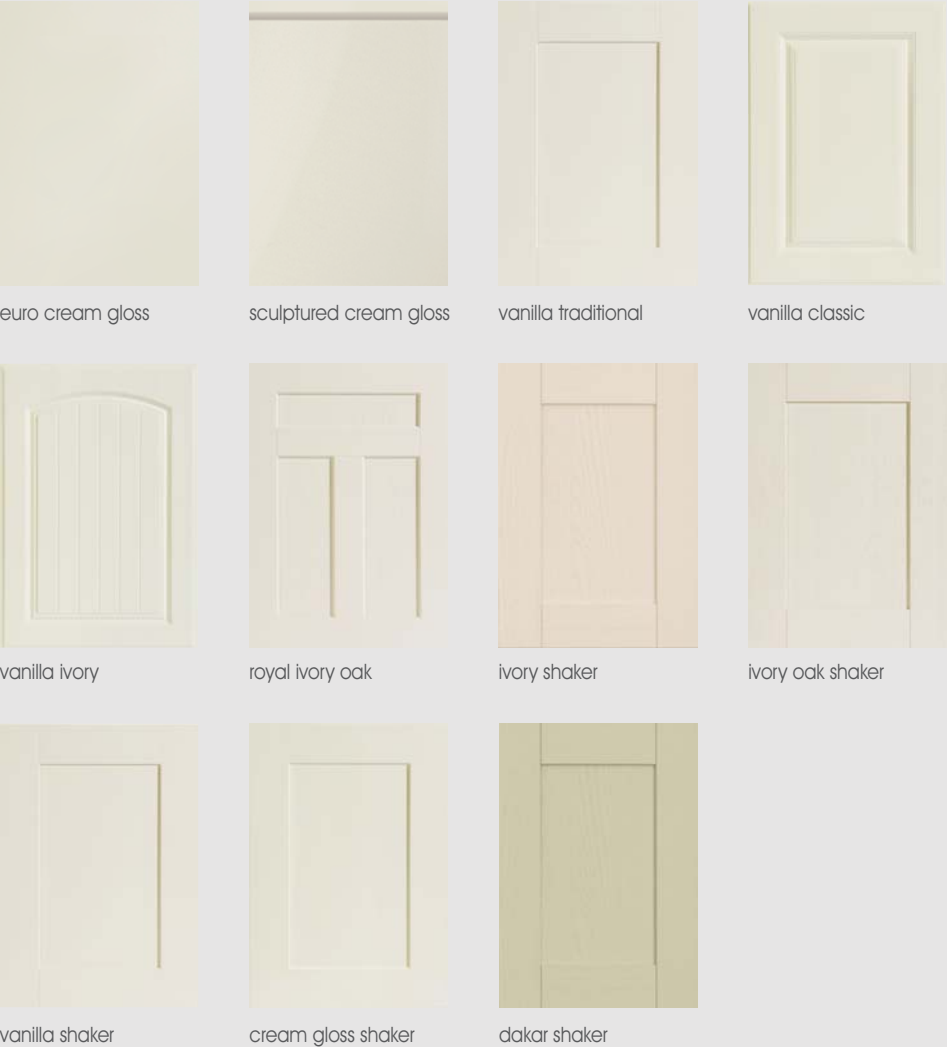

# cabinet options

With a choice of 4 cabinet colours your kitchen can be colour co-ordinated or contrasted to suit your taste. Cabinets supplied with each range as standard are shown with replacement end panels offering exterior finishes to match the door. Appliance housings and larger cabinets have door matching exteriors. Should you prefer an alternative cabinet colour please remember that co-ordinated add-on panels will be required where cabinet end panels are visible.

Glass shelf

Blum foil & film holders

Blum plate holder

Blum spice tray

# lighting solutions

LED lighting offers a number of solutions to create ambience and different moods in your kitchen.

'Task lighting' **T** illuminates working areas or 'mood lighting' **M** creates a unique and atmospheric style statement.

With long life bulbs & energy consumption at a fraction of the price of halogen lighting there are both cool and warm white options to suit your design and layout.

Look for the **T** (task) or **M** (mood) light symbols for suitability. Some lights are also \*dimmable when used with the control switch on page 21.

## LED colour

Choosing the right shade of light is an important consideration. Cool white usually works better with contemporary kitchens and warm white with more traditional designs and painted doors.

Cool White Light

Warm White Light

### QUADRA PLUS - U LED Under Cabinet Light

Boasting an ultra modern design this fitting is great for task lighting in the more contemporary kitchen.

- Aluminium finish
- Choose from cool or warm white LED
- Select with or without an integrated touch switch
- 12.5 year lifespan
- 2.4 watts, 12v

Why not add a swipe on / off sensor switch or dimming sensor switch? see page 21 for details.

Inset image shows the Quadra Plus - U with integrated touch on/off switch.

### HYPE HD LED Recess/Surface Light

Mount under kitchen cabinets and use as task lighting or use in glass fronted cabinets for mood lighting.

- Stainless Steel finish
- Cool white & warm white LED available
- Dimmable\*
- Long lifespan of 12.5 years
- 1.65 watts, 24 volts

**T M**

### SLS LED Recess/Surface Light

This fitting has no visible LED lenses for a sleek diffused light. Mount this ultra-bright light under wall units for superb task lighting.

- Aluminium finish
- Choose from cool or warm white LED
- Dimmable\*
- 12.5 year lifespan
- 3 watts, 24 volts

**T**

### BERMUDA HD LED Triangle Light

Mount under cabinets for superb task lighting. The angled aspect of this fitting gives optimum illumination of the worktop.

- Stainless Steel finish
- Cool white & warm white LED available
- Dimmable\*
- 12.5 year lifespan
- Lamp lasts up to 11 years longer than halogen
- 1.65 watts, 24 volts

**T**

MIMAS TT SOLUS

### Rechargeable LED In Cabinet Lighting

Rechargeable battery powered in-cabinet lighting. Cable free, no electrical installation required.

- Aluminium finish
- PIR sensor built-in
- Cool white LED
- 8 month run time before the light needs to be charged.

Products contain a Lithium-ion battery. The charging time of the battery is 6.5 hours (on average).

Pluggable USB charger with 5m cable

ARC  
LED Illuminated Glass Box Shelf M

Illuminated glass box shelf with LED strip integrated. No need for replacement lamps.

- 600 or 900mm lengths
- Aluminium structure
- Cool white LED
- Panes of glass on both top and bottom
- On/off switch on the bottom right hand side
- LED Driver built-in
- Maximum load of 3kg
- 5.8 watts ( 600mm )
- 12 watts ( 900mm )

LUCE  
LED Square Plinth Pack M

This pack contains 4 x LUCE fittings with pre-wired cable and a LED conversion plug.

- Available in cool white and warm white LED
- Stainless Steel surround
- No visible LED points, diffused effect
- The fittings daisy chain together for simple installation
- 0.72 watts (each)

PURO  
LED Plinth Light Pack M

Kit contains 4 lights and LED conversion plug.

- 15mm fittings
- Cool or warm white LED
- Transparent cover disk for a discreet look
- Fittings daisy chain together for simple installation
- 0.48 watts (each)

ASTA  
LED Over Cabinet Light M

Introduce soft mood lighting by illuminating door fronts.

- Aluminium finish
- Adjustable head
- Choose from cool or warm white LED
- Dimmable\*
- 1.65 watts, 24 volts

VEGA  
HD LED Flexible Strip Light T M

Create stunning mood lighting with this ultra-bright LED flexible strip. Perfect for use at plinth level, above cabinets and under breakfast bars.

- 2 lengths available | Interlink strips to create the length required
- 3.5 times brighter than VIVA | Can be cut to length & cut end reconnected
- Choose from cool white and warm white LED | Dimmable\*
- 7.5 watts ( 1 metre ) | 15 watts ( 2 metre ) | 24 volts

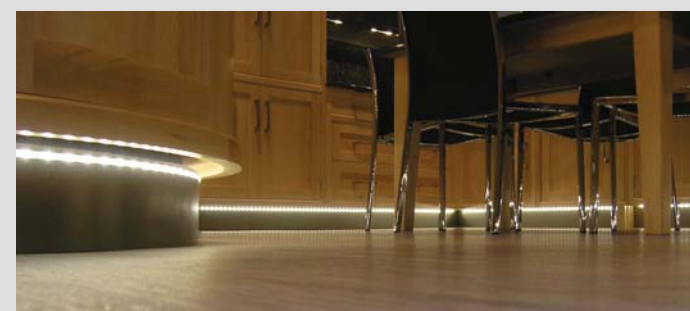

VERSO  
LED Drawer Light T

The ideal solution to illuminate pan drawers.

- 3 lengths available for 500 | 600 | 900mm drawers
- Cool white LED
- Operated by a built-in sensor
- 2.6 watts ( 500mm )
- 3.3 watts ( 600mm )
- 5.4 watts ( 900mm )
- 12 volts

DuoFlex Remote Control

VIVA  
LED Flexible Strip Light M

Create subtle mood lighting in the kitchen with this versatile product.

- 2 lengths available | Interlink multiple strips
- Can be cut to length and cut end reconnected
- Choose from cool white and warm white LED
- 3M self adhesive backing for quick and simple installation
- Dimmable\* | 2.5 watts ( 1 metre ) | 5 watts ( 2 metre )
- 12 volts

DUOFLEX  
Dual Colour LED Flexible Strip Light M

Seamlessly mix between cool and warm white LED to create the perfect mood.

- 2 lengths available | One receiver is required per 6m run of DuoFlex
- Up to 11 receivers can be controlled via one remote control
- Interlink strips to create the length required
- The last strip in the run can be cut to length
- 3.75 watts ( 1 metre ) | 7.5 watts ( 2 metre )
- 24 volts

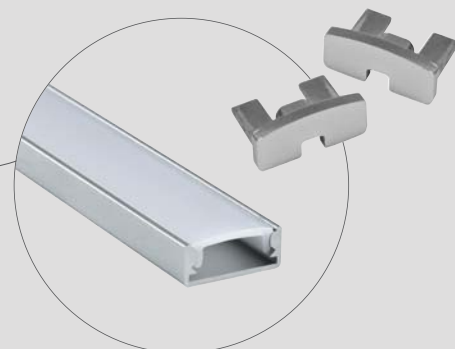

**FINO**  
Surface Mounted Aluminium Profile

Choose flexible strip lighting from the previous page in the style and LED colour of your choice. The strip is then simply fitted inside the profile which is surface mounted under the wall units.

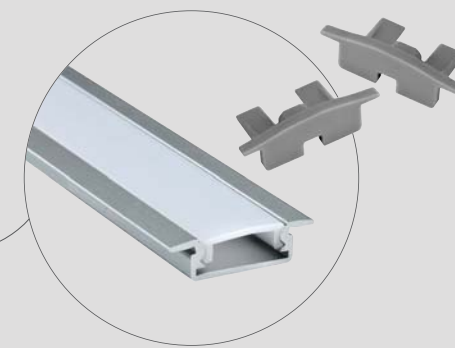

- Aluminium profile with frosted cover for diffused light
- 2 lengths available
- Can be cut to length as required
- With a depth of only 8mm this profile is ultra discreet

**LINIA**  
Recessed Aluminium Profile

Choose flexible strip lighting from the previous page in the style and LED colour of your choice. The strip is then simply fitted inside the profile which can be routed into the underside of the wall units to create task lighting or inside larders or tall housing units to illuminate the interior.

- Aluminium profile with frosted cover
- 2 lengths available
- Can be cut to length as required
- Use inside larders or tall housing units to add an element of convenience
- When using inside units, add a cabinet sensor switch so the light switches on/off as the door opens/closes

**Pull up socket**

Boasting several design features, this attractive & discreet pull up socket will make a fantastic addition to your kitchen.

- 3 x sockets
- 2 x USB ports
- Easy to use handle, simple to pull up
- IP54 rated, protected against splashes of water
- On/off switch for sockets
- Can be retracted with items plugged in
- Accessible fuse

Stainless Steel

## lighting control...

Consider adding lighting control to your kitchen to add an element of convenience. Maintain hygiene levels in the kitchen as both switches below are Infrared, simply swipe your hand past the sensor to switch your lights on/off. The lights in this section stated as dimmable can be controlled using the LED Dimming Sensor Switch.

**LED Cabinet Sensor Switch**

Dual-function product, to be mounted under a wall cupboard to act as an on / off swipe sensor switch for under cabinet lights.

Or mount inside a cabinet to act as an on/off switch for internal cabinet lighting.

- Aluminium finish
- A maximum of 5 lights can be connected

**LED Dimming Sensor Switch\***

Multi-functional product with a contemporary aluminium effect finish. This product has 3 functions:

- Touch dimming (hold your hand over the sensor to dim the lights)
- Swipe on/off control for under cabinet lighting
- In cabinet on/off control (internal cabinet lights will switch on/off on opening & closing the door)

# create your own look

Kitchens can be as individual as you are, utilising different fascia colours can create a contrasting or complementary effect. Take inspiration from some of our choices or do your own thing!

create your own look

## euro grey gloss & euro cashmere gloss

Use a blend of the darker grey with the warmer lighter tone of cashmere to create a beautiful design.

## euro cashmere gloss & driftwood

Choose the more neutral palette of gloss cashmere alongside the matt horizontal grain of driftwood for a kitchen that contrasts in finish yet complements in colour.

## royal natural oak & royal sage

Traditional timber can also be mixed to create a unique look. Have separate colour workstations as we've designed here or consider using the mix in a straight run to create a focal point.

## euro sand gloss & grey grained oak

The new grey grained oak fascia has a textured finish to replicate the feeling of timber. Combine this door with the smooth gloss look of Euro Sand to create a truly eclectic kitchen.

# why choose sculptured cashmere?

- The handle-less and contemporary look that's becoming highly popular in the UK.
- A beautiful palette colour as an alternative to white and cream
- A modern gloss finish that's really easy to clean
- Curved and bi-fold units to make a real design statement

# why choose **maia**® ?

**maia**® is a stylish and durable range of solid surface worktops.

Seamless joins and a silky smooth finish make **maia**’s designer worksurfaces a luxurious addition to your home. Designed to have the appearance of stone without the high cost and inherent drawbacks, **maia** surfaces are highly heat resistant, impenetrable to dirt, dust and bacteria and easy to clean.

Available in a range of colours to suit every home, **maia** solid surfaces are both functional and beautiful. Feel the difference with **maia**.

## why choose maia®?

**maia®'s** easy fit system makes installation simple and allows you to create worksurfaces to fit your own design requirements.

Surfaces can be readily installed using standard wood working equipment and they are supplied pre-edged. All of this means that there is no need for expensive and time consuming templating usually associated with solid surface products.

Coloured adhesive means that joints are almost seamless and any damage can be easily sanded and re-polished out.

All worktops, breakfast bars and sink modules are available in 28, 42 and 54mm thicknesses. Choose from 1.8 and 3.6 lengths including sink modules and curved ends. Factory finished islands, upstands, splashbacks and end panels add a touch of class.

- ✓ Barcol Hardness - EN59
- ✓ Fungal Resistance - EN ISO 846
- ✓ Bacterial Resistance - EN ISO 846

- ✓ Light Fastness - ISO 4892
- ✓ Food Safety - EN V 1186
- ✓ Exposure to 180° Dry Heat - EN 438-2.8

# minerva® solid acrylic worksurfaces...

Welcome to **minerva**® a new, practical and solid kitchen worksurface manufactured using state-of-the art technology. Delivering a luxurious appearance, cool pleasing touch and robust performance from its solid 25mm thick material, **minerva**® has the advantage of being the same colour throughout. This means that sweeping curves and two tone worktops can be easily created plus Belfast sink fitting is not an issue due to benefits of the product being 100% waterproof.

minerva® worktops

## Imperceptible, Seamless, Solid Joints

Thanks to the solid acrylic core there are no concerns with water ingress. **minerva**® is designed to deliver the best possible aesthetic results. our renowned jointing strength **minerva**® is rock solid! Nor are any special preparation procedures necessary to achieve beautifully imperceptible, seamless joints.

## Factory finished edges ready for fitting

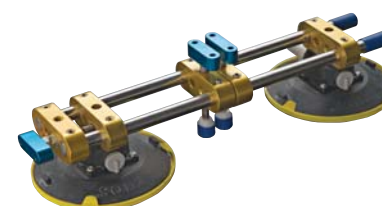

All **minerva**® worksurfaces are supplied ready for installation with smooth factory finishing on exposed edges.

Breakfast bars, splashbacks and upstands, are just some of the added attractions of choosing **minerva**® .

Optional adjustable seam setting device with suction clamps for easier jointing

## Prefabricated sink solutions

Undermounted sink modules with factory applied drainer grooves save time when it comes to preparation and installation.

## minerva® colour palette...

There are 12 superb colours to choose from with a number of light options to suit darker kitchen door finishes.

\*Each of these worksurfaces are unique, reflecting the natural appeal of marble and stone.

### Routine cleaning

**minerva**® does not require any specialist cleaning, simply wipe off with a damp cloth and soapy water. The worksurface should then be rinsed with clean water and wiped dry. Persistent marks can be removed by using a mild abrasive cleaner, but harsh scouring powders should be avoided. Unlike marble and granite, **minerva**® is non porous, hygienic and will resist most household chemicals including alcohol.

### Heat

**minerva**® will withstand heat better than many alternative surface materials with boiling water and cooking splashes not being an issue. As with **maia**® however, all hot pot, pans and other heat generating devices should always be placed on a trivet or worktop protector rods.

**minerva**® is supported by the FIRA Gold Award for product excellence and covered by a 10 year manufacturer's product guarantee.

### Minor scratching

As with **maia**®, kitchen utensils and unglazed crockery can sometimes cause scratches that will be more evident on darker colours. Use of a cutting board is essential though minor scratches can easily be removed using the abrasive pad and other items from the care kit.

# appliances

Don't forget that we can satisfy all of your appliance needs too!  
Simply browse through some of the latest market-leading designs...

The pursuit of constant improvement means that CDA never stands still.

An expert product development team works with the latest design and technology techniques to bring the best product features and quality aspects to their range.

For added peace of mind CDA products carry a five-year parts and two-year labour warranty.

For a century, Belling has brought clever innovation ideas to appliances.

A British brand at the heart of cooking in the UK, they understand the needs of the customer.

Belling remains one of the most trusted brands in cooking with generations of families growing up with a Belling oven in the kitchen, they are firmly dedicated to quality, choice and reliability.

# sinks and taps

Our stunning range of sinks and taps combines innovative design with ultimate functionality. From traditional charm to cutting edge minimalism, our collection encompasses the very best modern design and materials to help you create a kitchen bursting with beautiful products with superb features. Here is just a small selection of granite, stainless steel and ceramic sinks all covered by a lifetime guarantee, together with an array of designer taps.

## create the look...

most sinks in our collection are available with a sink accessory package, which can include chopping board, wire basket and strainer bowl, where applicable

**CARRON**  
PHOENIX

# granite sinks

Durable, scratch & stain resistant, granite sinks are sanitised with embedded silver ions to prevent 99% of bacteria.

## java...

The Java range has quickly become recognised as a modern design classic, combining simple linear shape with gentle flowing curves. The beautiful granite surface is highlighted by a concealed overflow made from brushed stainless steel.

Java 100

- Colour - Polar White / Champagne / Graphite / Espresso / Slate / Jet Black
- Size: 1000mm x 510mm

Java 150

- Colour - Polar White / Champagne / Graphite / Espresso / Slate / Jet Black
- Size: 1000mm x 510mm

Also available Java 90 (suits 500mm base) 860mm x 510mm

## bali...

Bali brings a superb combination of angular style and grace to any kitchen space following the 'less is more' rule of styling. Available in two models, Bali offers both simplicity and functionality for any busy kitchen.

Bali 105

- Colour - Polar White / Champagne / Graphite / Espresso / Slate / Jet Black
- Size: 970mm x 500mm

Bali 150

- Colour - Polar White / Champagne / Graphite / Espresso / Slate / Jet Black
- Size: 970mm x 500mm

Also available Bali 100 (suits 500mm base) 780mm x 500mm

## summit...

Summit is a classic. The simple, square-shaped design has timeless appeal. The generous sized bowls and drainer areas ensure it is both functional and practical.

Summit 105

- Colour - Polar White / Champagne / Graphite
- Size: 1000mm x 510mm

Summit 150

- Colour - Polar White / Champagne / Graphite
- Size: 970mm x 510mm

# stainless steel sinks

## Zeta & Adelphi

A deep bowl, sturdy inset sink with a refreshingly modern design. Here, straight lines combine with gentle curves on the well proportioned drainer and tap ledges. With their practical designs, Zeta and Adelphi offer more than versatile sink choice.

- Chrome, brushed steel or black
- Height: 257mm
- Spout reach: 160mm

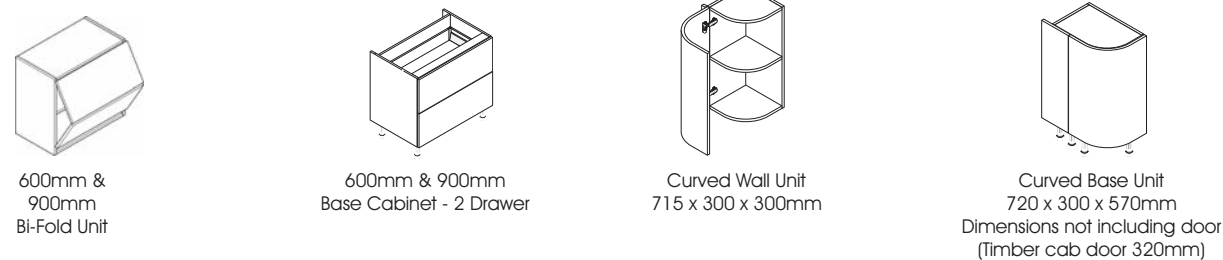

# range content

all cabinets are 18mm construction

## feature units

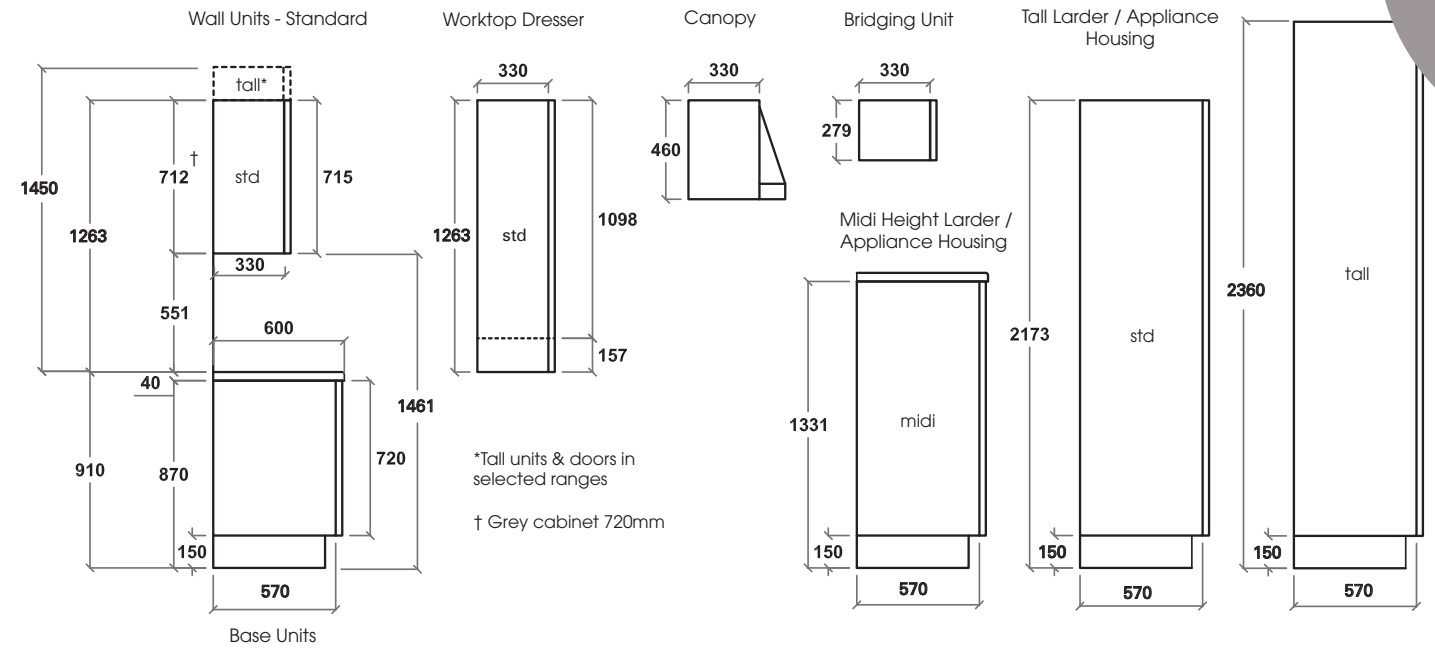

(Some cabinets not available in selected ranges, please ask for details.)

In the interests of continuing design development and product improvement we reserve the right to change colours, designs and specifications or method of manufacture. Such changes may be made without prior notice and without incurring any obligation. All units are manufactured to within normal tolerances. Natural wood is used in some of the kitchens. As wood is a natural living material with an endless variety of grains and textures, some natural colour and grain variation evident on installation will diminish dramatically over a few months as the wood is exposed to light. The expression "solid wood" refers to door and drawer fronts only. Indications of colourways throughout this brochure are as accurate as the printing process will allow. E&OE, March 2015.

# technical specifications

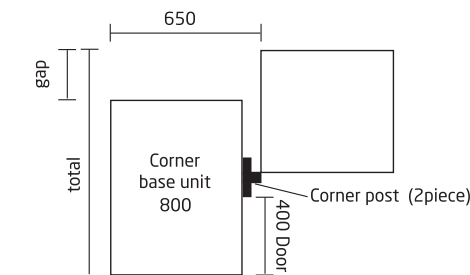

## end elevations

all measurements are shown in millimetres and are nominal sizes.

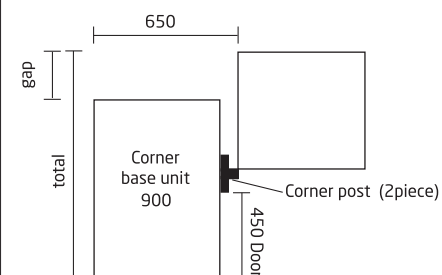

## corner information

### 800mm Conventional Corner Base Unit

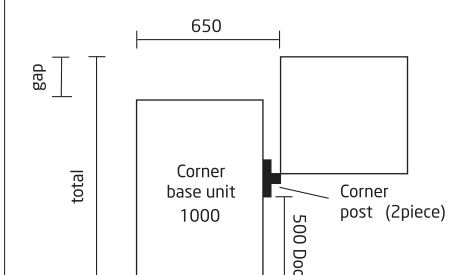

If using alternative door sizes the gap to the wall changes and centre post of cabinet would require refixing.  
300mm door = 150mm gap (950mm total)  
400mm door = 250mm gap (1050mm total)  
450mm door = 300mm gap (1100mm total)

### 900mm Conventional Corner Base Unit

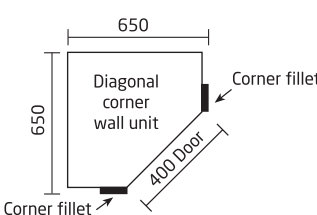

If using alternative door sizes the gap to the wall changes and centre post of cabinet would require refixing.  
400mm door = 150mm gap (1050mm total)  
450mm door = 200mm gap (1100mm total)

### 1000mm Conventional Corner Base Unit

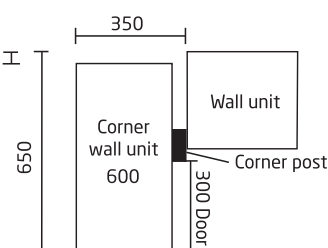

If using alternative door sizes the gap to the wall changes and centre post of cabinet would require refixing.  
500mm door = 150mm gap (1150mm total)  
600mm door = 250mm gap (1250mm total)

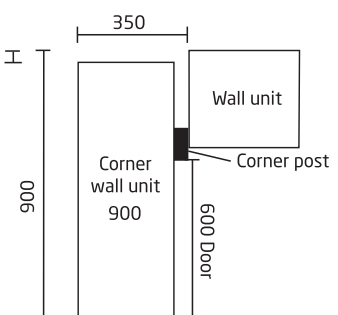

### 650mm Diagonal Wall Unit

### 600mm Conventional Corner Wall Unit

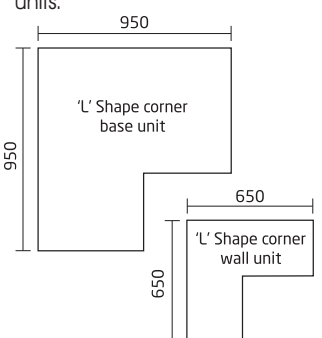

### 900mm Conventional Corner Wall Unit

### 'L' Shape Corner Units

Note:- Walls must be square to accommodate L shaped units.
